25X1A

21 JUL 1967

**MEMORANDUM FOR: AFTRC**  
**Headquarters, USAF**

**ATTENTION : Brigadier General Leo P. Geary**

**SUBJECT : Active Duty Extension of Officer**

25X1A

1. It is requested the Date of Separation of [ ]  
[ ] of this office be extended for  
a period of two years from 31 August 1967 to 31 August  
1969. This would allow [ ] to complete four  
years at [ ] [ ] concurs with this request.

25X1A

25X1A

2. [ ] has been an active contributor to  
the plans and development of the OXCART program for the  
past 3 1/2 years, both in this Headquarters and at [ ]  
He was personally responsible for the initiation of the  
"Automatic Position Sequencing" modification to the INS.  
Aside from other advantages, his primary purpose in initia-  
ting this modification was to preclude loss of the aircraft  
over denied territory in the event the pilot was incapacitated.  
Lately he has proposed other INS modifications, some of  
which have been accepted. Generally, [ ] has been  
deeply involved with Mission Generation Timing. He original-  
ly conceived the "Canned-Custom-Canned" concept.

3. Pointed out are these specific achievements because  
it is felt that the OXCART program would benefit if [ ]  
[ ] date of separation be extended two years. The  
attached letter points out that Hq USAF may extend certain  
officers "in those instances involving selected skills in  
which an urgent Air Force requirement exists, or in which  
unique circumstances are involved". It is believed this  
describes [ ] situation.
